

Annual report on adopted child(ren) from Kazakhstan

IMPORTANT. Please read the following instructions before completing the report.

1. All areas should be applicable, you should not have to write NA anywhere. If you feel that there is something that is “not applicable” then we ask for you to explain why in the section of question.
2. There is no right or wrong way to write this report. Say whatever you think is the right thing to say, in as much length as you feel is necessary. It is fine to write several sentences or several paragraphs, it is your choice to make.
3. There is no requirement to send in an actual medical report. If your child has never seen a Doctor then simply write something to that effect in the medical info area.
4. Please include 6+ recent photos of your child with this report, more is always better. If you are sending printer photos, please make sure they are of GOOD quality. **Do NOT** send “collage pages”, send individual photos only. **Do NOT** send photo albums. Please identify photos on the back with the child’s name. One report for more than one adopted child is fine. If you adopted multiple children they can all be in the same photos.
5. You can complete this form on your computer, on a typewriter or by handwriing it. Once it is complete, please sign it, do not just type in your name. No notary or Apostille is necessary.
